

Welcome

Dear New Patient,

We are happy to welcome you to our practice. After 7 years of working in a large clinic I started Fremont Family Practice in February 2002. I did this because I wanted to spend more time with my patients and focus on more personalized care. This practice model uses electronic medical records and practice management software, as well as reduced office staff to allow the providers to spend more time with our patients. The clinic has grown rapidly over the last few years and we feel this model has allowed us to provide quality care in an efficient practice setting.

The following document will provide information regarding some of the important logistics of the practice. As we grow, we are adapting and changing so we welcome your input, suggestions and questions.

We look forward to caring for you and your family and hope you enjoy being a patient at Fremont Family Practice.

David Harvey, M.D.
Family Physician

PROVIDERS

David Harvey, MD. Graduated from University of Washington for both Undergraduate and Medical degrees. He completed his residency in Family Medicine at Providence Hospital, Seattle in 1996. For 7 years he worked at a Hispanic Community Health Center in south Seattle as Associate Clinical Professor for University of Washington Department of Family Medicine. He has a special interest in sports medicine and travel medicine. Dr Harvey is board certified in Family Medicine. Dr Harvey and his wife Dr Mahvash Khajavi-Harvey (the Dentist at Fremont Medical and Dental) have 2 children: Zachary, 5 and Parisa, 2.

Eric Rose, MD. Also completed his residency in Family Medicine at Providence Hospital, Seattle in 1996. He was a clinician for the University of Washington Factoria clinic for 7 years. Dr Rose has a strong interest in informatics (utilizing technology in medicine e.g. electronic medical records) and works for a Seattle based company that provides these tools to practices. He also works part time at Fremont Family Practice.

Elizabeth Bayley, ARNP. Completed her Undergraduate at Harvard and Nurse Practitioner degree at Seattle University. For one year she worked at an infertility clinic in Kirkland. She has been at Fremont Family Practice since mid 2006 and has a special interest in women's health and environmental medicine. A Seattle native and avid outdoorswoman, she and her husband John are expecting their first child this Spring.
